Name: Class:

	Red	Amber	Green
Core Technical Principles: New and Emerging Technologies			
N1 I can know and understand the impact of new and emerging technologies on industry			
N2 I can know and understand the impact of new and emerging technologies on enterprise			
N3 I can know and understand the impact of new and emerging technologies on sustainability			
N4 I can know and understand the impact of new and emerging technologies on people			
N5 I can know and understand the impact of new and emerging technologies on culture			
N6 I can know and understand the impact of new and emerging technologies on society			
N7 I can know and understand the impact of new and emerging technologies on the environment			
N8 I can know and understand the impact of new and emerging technologies on production techniques and systems
