2A: Urban issues and challenges: **Section A**

H1 I can describe and explain the global pattern of urban change and to know urbanisation trends in different parts of the world including HICs and LICs, including the emergence of megacities, where are they, why have they emerged?			
H2 I can explain the factors affecting the rate of urbanisation – Migration (Rural to Urban inc push-pull theory) and Natural Increase.			
H3 I can outline the location and importance of the city, regionally, nationally and internationally and to know the SPECIFIC causes of growth: natural increase and migration – for Rio De Janeiro.			
H4 I can Explain and Evaluate how urban growth in Rio has created opportunities: Including: social: access to services – health and education, resources – water supply, energy, economic: how urban industrial areas can be a stimulus for economic development.			
H5 I can Explain and Evaluate how urban growth in Rio has created challenges: including: managing urban growth – slums, squatter settlements, providing clean water, sanitation systems and energy, providing access to services – health and education, reducing unemployment, crime and managing environmental issues – waste disposal, air and water, pollution and traffic congestion.			
H6 I can evaluate an example of how urban planning in Rio is improving the quality of life for the urban poor – Favela Bairro.			
H7 I can describe the overview of the distribution and the reasons for this distribution, of the population and the major cities in the UK.			
H8 I know a case study of a major city in the UK to illustrate: in terms of the location and importance of the city in the UK and the wider world. Also the impacts of national and international migration on the growth and character of the city – Manchester.			
H9 I can Explain and Evaluate how urban change has created opportunities: in terms of social and economic: cultural mix, recreation, entertainment, employment and transport and environmental - urban greening.			
H10 I can Explain and Evaluate how urban change has created challenges: social and economic: urban deprivation, inequalities in housing, education, health and employment. Environmental: waste disposal, dereliction, building on brownfield and greenfield sites.			
H11 I can explain the impact of urban sprawl on the rural-urban fringe, and the growth of commuter settlement.			
H12 I can evaluate an example of an urban regeneration project to show the main features of the project and the reasons why the area needed regeneration.			
H13 I can explain the main features of sustainable urban living, specifically how transport systems can be designed to be more sustainable.
