Politics Assessment Map

Definition		Formative	Summative
		Formative Assessment is defined within our assessment policy as the frequent interactive assessment of what students currently know and understand to identify learning needs and adjust teaching appropriately.	Summative Assessments are defined within our schemes of work to determine students' knowledge and understanding, to test the achievement of learning outcomes at the end of a specified period of study. They are assessments used to determine progression, indicate levels of achievement and predicted grades.
Intent		At Crompton House School, formative assessment is integral to everyday teaching. It has the needs of our students at its core (to build up confidence and reduce anxiety) and it is embedded into teaching activities within each lesson. Via the use of formative assessment approaches, low stakes testing and retrieval practice techniques, our aim is to be best prepared to help our students to embed and use knowledge fluently to improve long term knowledge retention, to meet all students' needs through differentiation and adaptation of teaching, and to achieve a greater equity of student outcomes.	The aim of summative assessment at Crompton House School is to help us to know our students better, to assess their potential and improve performance. Our emphasis is on measuring and evaluating student outcome by finding out what students already know, understand and can do, and then using the outcomes from our summative assessments to influence how we teach, plan improvements and identify struggling students. Our aim is a hand in glove relationship that exists between learning objectives, assessments and teaching.
Timescales	Annual Implementation and Impact	Formative assessment at Crompton House School supports students' progress towards learning of knowledge, concepts and skills by: - consistently monitoring students' developing knowledge, understanding, and skill related to the topic at hand in order to know how to proceed with instruction in a way that maximizes the opportunity for student growth and success with key content - revisiting topics/concepts/skills throughout each year; this is a core focus of our teaching and homework policies; in applying low stakes testing, students gain a firmer grasp of knowledge so they can recall and apply this much later on - actively involving students in the process of teaching and learning - building students' skills for peer- and self-assessment helping students to understand their own learning, and developing appropriate strategies for 'learning to learn' Our processes of effective formative assessment give teachers confidence in making judgement about the progress of their students. Our students, who are actively building their understanding of new concepts, who have developed a variety of strategies that enable them to place new ideas into a larger context, and who are learning to judge the quality of their own and their peer's work against well-defined learning goals and criteria, are also developing skills that are invaluable for learning throughout their lives. The little and often approach reinforces good habits and changes attitudes towards learning. Via frequent retrieval practice and low stakes testing, students will become more and more aware of what they are remembering.	If our students are not rigorously assessed, we would have no way to track progress throughout the year and no way to identify problems in time to correct them. We are therefore committed to the implementation of well thought out and carefully written summative assessments, which are directly linked to departmental schemes of work and PLCs (personalised learning checklists) in order to allow for an effective analysis of student strengths and weaknesses and evaluation of student outcomes. Our summative assessments will demonstrate results that reveal a degree of mastery and analysis of students' progress towards intended goals. The rigour of questions on each assessment, specifically aligning these to what is taught, will define the rigour of Crompton House, as a school, and in doing so, will determine what our students will achieve. We are focused on creating an environment in which each student is expected to learn at high levels and our summative assessments are written to require a rigorous demonstration of learning.
		Key strategies of effective formative assessment on a termly / half termly basis within KS5 Politics include: - GRIT tasks after every assessed piece, including scanning in examples of best practice and discussing common errors as a class. - Mark schemes are provided with key pieces of work and essays	Summative assessments are directly linked to PLCs and used as a means to assess the security and depth of understanding a student has attained against the key course content we have defined for them. They are consistent with departmental schemes of work and PLCs. They test the learning outcomes accurately and fairly and are capable of effectively differentiating levels of

	Interim Implementation (Termly / Half Termly)	• Home learning is for consolidation and practice purposes and includes reading, research, questions and tasks to aid learning and exam performance. • Each topic has a PLC which is discussed, RAGged and reviewed at the end of each topic. • Each topic has at least one essay or extract question. Most of which are done in timed conditions but some will be planned as a class, or pre warning of the question will be given. • Students are given model answers which they then turn back into plans.	student achievement where required. Summative assessments are teacher assessed and moderated. Please see the assessment calendar for summative assessment dates. https://www.cromptonhouse.org/assessment/
	Weekly Implementation	Key strategies of effective formative assessment in action in weekly lessons within KS5 Politics include: • Kahoot quizzes to check gaps in pupils knowledge. • Students write introductions/ conclusions/ key paragraphs of essays to build up their skills. • Peer assessment of understanding- either verbal or using red pen on work. • Students will view mark schemes at least weekly. • Model answers will be used to support learning. • NOW / GRIT tasks completed by students after feedback. This is placed in assessment folders.	
	Hourly Implementation	Key strategies of effective formative assessment in action in hourly lessons within KS5 Politics include: • Focused questioning. • Use of research diaries. Students take it in turns to present and lead a discussion of a news story at the start of lessons. • Mini tests as plenaries. • Learning objectives • Hooks as starters. • Discussions – quieter students are encouraged to give their point of view by the teacher. • Use of keywords- sometimes introduced as word scrambles as a starter task. • Use of all three key skills AO1, AO2 and AO3.
